ADDITIONAL EXPERIENCE

Lead Speech-Language Pathologist   2019 – Present
Pasadena Unified School District   Pasadena, CA
Provide guidance, supervision, and mentoring to a department of 30-40 Speech Language Pathologist (SLP) and Speech-Language Pathology Assistants. Ensure compliance with state and federal regulations for Special Education eligibility, supports, and services. Facilitate consistent and transparent communication between district administration, service providers, and parents.

Key Accomplishments:
- Created and manage Google sites for two departments with resources for staff and parents
- Created reference library of resources, procedures, and templates to onboard and support staff

- Develop and deliver professional development training for a variety of professionals
- Increased interdisciplinary collaboration across service providers to increase efficiency and improve student outcomes

Alternative and Augmentative Communication (AAC) Implementation Training *2021* – Present
Pasadena Unified School District Pasadena, CA
Provide training and guidance to parents and staff for low, mid, and high-tech communication systems to support student access. Facilitate collaborative goal development across therapeutic and educational disciplines. Develop visual supports for use in academic environments and create icon maps to support Aided Language Input across multiple language systems.

Key Accomplishments:
- Increased consistency of training opportunities for staff and parents across the district
- Developed robust inventory of visual supports for implementation in classrooms across special education settings

Speech-Language Pathologist *2013* – 2019
Pasadena Unified School District Pasadena, CA
Conduct language and speech evaluations to determine eligibility for Special Education services under Speech or Language Impairment. Develop and maintain Individualized Education Plans, including goal development, accommodations, and services. Consult with parents and teachers to support student progress across settings. Deliver and document services for a caseload of 45-60 students, from preschool through fifth grade. Supervise and mentor graduate student interns during clinical practicum placements.

Key Accomplishments:
- Developed and delivered school-wide training for adoption of inclusive language strategies
- Developed referral guide for teachers and delivered training to support implementation
